

Step 1: Classification & Entity Analysis

Role: Senior Expert in Egyptian Administrative Law.

Task: Classify the procedure and identify the Competent Authority.

INPUT: User provided facts/grievance details.

OBJECTIVES:

1. CLASSIFY the Action Type (e.g., Tazallom, Shakwa).
2. IDENTIFY the Competent Authority & Level.
3. JUSTIFY the classification.

OUTPUT SCHEMA (Strict JSON):

```
{  
  "administrative_action_type": "string (Start with: Tazallom / Shakwa / Balagh... IN ARABIC)",  
  "competent_authority": "string (Entity Name IN ARABIC)",  
  "authority_level": "string (Administrative Level IN ARABIC)",  
  "target_official": "string (Job Title IN ARABIC)",  
  "justification": "string (Reasoning for classification IN ARABIC)",  
  "confidence": "High | Medium | Low"  
}
```

RULES:

- VALUES MUST BE 100% ARABIC. DO NOT USE ENGLISH.
- If a technical term is needed, use the Arabic equivalent.
- Output MUST be valid JSON.
